Dr Johanna M. Vos

American Museum of Natural History 200 Central Park West NY 10024, USA jvos@amnh.org

Current Position American Museum of Natural History

2018 - Present

Postdoctoral Fellow

Education Institute for Astronomy, University of Edinburgh

2014-2018

PhD in Astronomy

Thesis: "Characterising Weather and Rotation on Substellar Worlds"

Advisor: Dr Beth A. Biller

Trinity College Dublin

2010-2014

BA (Mod) Physics with Astrophysics Graduated with First Class Honours

Thesis: "Sunspots and Solar Flares: The Role of Flows"

Advisor: Dr Peter T. Gallagher

Research Atmospheres of brown dwarf and giant exoplanets

Interests Cloud-driven variability

Young brown dwarfs as exoplanet analogs

Awards Cool Stars Travel Grant August 2018

Principal's Go Abroad Fund University of Edinburgh, June 2018

Exoclipse Travel Grant August 2017

Principal's Career Development Scholarship University of Edinburgh, 2014–2018

First-Class Book Prize Trinity College Dublin, 2011, 2012, 2013.

Telescope Time Spatial Cloud Map of a Planetary-Mass Companion 2019

Awarded Spitzer Space Telescope Director's Discretionary Time, 33.1 hr, PI.

Weather and Rotation of Young Brown Dwarfs 2018

Spitzer Space Telescope Medium Program, 70 hr, PI

Rotational Velocities of Exoplanet Analogs 2016-2018

NASA Gemini/GNIRS and IRTF/iSHELL program, 10 nights, PI

Wind Speeds on Extrasolar Worlds 2016-2018

Spitzer Space Telescope, 30.8 hr & Very Large Array, 33 hr, Co-I

Exometeorology: Characterising Weather on a Young, Free-Floating Planet 2016

Simultaneous Hubble and Spitzer observations, 17.6 hr, Co-I

The First Search for Exoplanet Weather 2014-2017

ESO New Technology Telescope, 29 nights, PI

Selected Weather and Rotation on Substellar Worlds

Presentations Seminar, American Museum of Natural History, February 2019

Detecting Weather Patterns on Low-Gravity Brown Dwarfs

Oral Presentation, AAS 233, Seattle, WA, January 2019

Weather Patterns on Exoplanet Analogs

Plenary Talk, Cool Stars 20, Boston, MA, July 2018.

The Viewing Angle of Exoplanet Analogues Influences Their Observed Colours and Amplitudes

Contributed Talk, Exoclipe, Boise, ID, July 2017.

Measuring Inclination Angles of Variable Brown Dwarfs

Contributed Talk, Scottish Exoplanet and Brown Dwarf Meeting, 2017.

The First Search for Weather Patterns on Exoplanet Analogues Invited Talk, European Southern Observatories, Santiago, Chile, March 2017.

Teaching Experience

Student Research Mentoring Program, AMNH

2018-Present

Mentor

The Student Research Mentoring Program (SRMP) offers high-school students the opportunity to join ongoing research with scientists at the American Museum of Natural History. I meet with three students twice a week to analyse data of the Luhman 16AB system.

After School Program, AMNH

2019-Present

Instructor - Stars

I lead a research course on stars for high-school students as part of the After School Program.

University of Edinburgh

2010-2014

Teaching Assistant

Throughout my PhD I lead undergraduate tutorials and labs for physics, astronomy and maths courses. In my final 2 years I was Head TA for the Observational Astronomy Lab, where I developed and updated the experiments.

Outreach Activities

StemEast, UK & Ireland

2014-2018

 $STEM\ Ambassador$

As a STEM Ambassador I gave talks and workshops in secondary schools around Ireland and Scotland about astrophysics research and studying STEM subjects at university.
